What's road ahead for India to become world's 3rd largest stock market by 2027? Analyst highlights top 7 triggers

We believe this strong growth and resilience in Indian Economy and markets is a culmination of multitude of idiosyncratic and structural factors being at play.

By - Niraj Kumar, Chief Investment Officer at Future Generali India Life Insurance Company

Over the years, the Indian economy and markets have seen steady compounding in terms of growth and consequently India's share in global Market cap has been steadily growing vis-a-vis other emerging and developed nations. After becoming the world's fifth-largest economy, India now ranks 5th in the world market cap (with a share of -3.5% of global M-Cap currently) vs 10th rank a decade ago, only behind developed nations like US. China, Japan and Hong Kong.

We believe this strong growth and resilience in Indian Economy and markets is a culmination of multitude of idiosyncratic and structural factors being at play and hence identify the following as key pillars that will drive the path ahead for the Indian Economy and Stock Markets:

- Transformative structural policy reforms by the government: Strong aggression from the side of the government is exemplified by its pro-growth policy reforms announced in terms of capital spending towards Infrastructure, Healthcare, Financial sector reforms, divestment of Air India along with Atmanirbhar Bharat, Production linked Incentive (PLI) and National Infrastructure Pipeline and successful implementation of the same would start manifesting in the growth numbers over the next few years.
- Favourable Demographic quotient and socio-economic landscape: Besides, anecdotal evidence and commentary also suggests that India may garner a larger share of FPI flows into EMs on the back of favourable demographics and democracy, as China's socio-political landscape makes it a less attractive investment destination. Some global asset managers have started launching EM Ex China fund. If this trend picks up, India will be the single biggest beneficiary)

સમય એકસપ્રેસ

ભારતીય શેરબજાર માટે ૨૦૨૭ સુધીમાં વિશ્વનું ત્રીજું સૌથી મોટું શેરબજાર બનવાનો માર્ગ, શ્રી નિરજ કુમાર ચીફ ઈન્વેસ્ટમેન્ટ ઓફિસર

જનરાલી ઈન્ડિયા લાઈફ ઈન્સ્યોરન્સ કંપની લિ. છેલ્લા દાયકામાં ભારતીય બજારો વર્ષોથી, ભારતીય અર્થતંત્ર અને બજારોએ વૃદ્ધિની દ્રષ્ટિએ સ્થિરતા જોયું છે અને પરિણામે વૈશ્વિક માર્કેટ કેપમાં ભારતનો હિસ્સો અન્ય ઉભરતા વિકસિત દેશોની સરખામણીમાં સતત વધી રહ્યો છે. વિશ્વની પાંચમી-સૌથી મોટી અર્થવ્યવસ્થા બન્યા પછી, ભારત હવે વિશ્વ માર્કેટ કેપમાં પણ પમા ક્રમે છે (હાલમાં વૈશ્વિક M-Cap ના ~3.5% હિસ્સા સાથે) એક દાયકા પહેલા ૧૦મો રેક્ર હતો હવે માત્ર યુએસ, ચીન, જાપાન જેવા વિકસિત દેશો અને હોંગકોંગ

આગળનો માર્ગ ખરેખર આશાસ્પદ લાગે છે કારણ કે અમારું માનવું છે કે ભારતીય અર્થવ્યવસ્થા એક એવા વળાંક પર છે જે નવા સદ્યુણ વૃદ્ધિ ચક્રના આગમનની નિશાની કરે છે. અમે નીચેનાને સ્તંભો મુખ્ય તરીકે ઓળખીએ છીએ જે ભારતીય અર્થવ્યવસ્થા અને સ્ટોક માર્કેટ માટે આગળના માર્ગને દર્શાવશે, સરકાર દ્વારા પરિવર્તિત નીતિઓ માં સુધારો : સરકાર તરફથી મજબૂત આક્રમકતાનું ઉદાહરણ ઈન્ફ્રાસ્ટ્રક્ચર, હેલ્થકેર, નાણાકીય ક્ષેત્રના સુધારાઓ, આત્માનિર્ભર ભારત સાથે એર ઈન્ડિયાના વિનિવેશ માટે મૂડી नन्युई. ખર્ચના સંદર્ભમાં જાહેર કરાયેલ

અમદાવાદ, ફ્શુચર ભારત ની આગળ છે. ભારત માટે તેની વૃદ્ધિ તરફી નીતિ સુધારાઓ સેવા નિકાસમાં ભારતની હાલની એક્સ ચાઇના ફંડ શરૂ કરી રહ્યા દ્વારા આપવામાં આવે છે. પ્રોડક્શન લિક્રુડ ઈન્સેન્ટિવ (PLI) અને ને શનલ ઈન્કાસ્ટ્રક્ચર પાઈપલાઈન અને તેનો સફળ અમલીકરણ આગામી થોડા વર્ષોમાં વૃદ્ધિના આંકડામાં દેખાવાનું શરૂ થશે. ભારત આત્મનિર્ભર બનવાના સાચા માર્ગ પરઃ સરકાર દ્વારા મેન્યુફેક્ચરિંગ પુશ સુધારાઓ એ ભારતને આત્મનિર્ભર બનાવવા માટે યોગ્ય દિશામાં પગલાં છે અને આયાત પરની ભારતની નિર્ભરતાને ઘણી હદ સુધી ઘટાડશે. આગળ આનાથી જીડીપીમાં નિકાસમાં ભારતનો હિસ્સો પણ વધશે અને મેન્યુફેક્ચરિંગ નિકાસમાં વધારો

Talent Acquisition: Challenges, Opportunities And The Future

Technology is undoubtedly going to ofter the landesone in a considerable way

Technology is undoubtedly going to alter the landscape in a considerable way.

But ultimately, technology can only function as a catalyst, a bridge for what actually constitutes your organizational culture.

It is critical, therefore, for us to utilize the powers of tech to convey our proposition to candidates. But as is self-evident, first we need to come up with a value proposition that is worthy enough to entice the best of the best out there. At Future Generali India Life Insurance for instance, with the basic tenets of our EVP- ACE With FG Life, as our underpinning, we constantly relook at and refine the constituent elements.

This is where the battle lines are going to be drawn eventually. Making an offer that can't be refused. Through our tech-enabled systems, we are in a position to holistically and creatively communicate how the lifecycle of the candidate can shape up with us. It is up to us to harness these resources and not miss out on any aspect that can potentially prove to be a deal breaker.

Hence, we have to both employ technology as well as innovatively use it to transport the foundation of who we are and what we offer, adequately and effectively.

Insurers share mixed views on proposed changes to Insurance and IRDAI Acts

The Insurance Laws (Amendment) Bill, 2022 is expected to be introduced in the budget session. Whilst some of the changes are long awaited, proposals such as an insurer undertaking multiple classes of insurance business and also distributing other financial products is being viewed with some skepticism. Here's what industry leaders said.

Sheersh Kapoor • ETBFSI • Updated: December 07, 2022, 10:06 IST

'Will promote cost and time efficiencies'

Allowing composite registrations provide flexibility for the Promoters to float one insurance joint venture company for doing multiple lines of business, said Conjeevaram Baradhwaj, Executive Vice President (Legal & Compliance) & Company Secretary at Future Generali India Life Insurance.

"This move promotes synergies & cost and time efficiencies, since there are many common functions like Investments, HR, IT & Information security, Legal, Administration between life, non-life & health insurance companies,

Moreover, there are common regulations applicable for all classes of businesses including IRDAI Corporate governance guidelines, Outsourcing, e-Commerce guidelines, Companies Act, Labour laws etc," he highlighted.

RBI MPC Live: Arjuna eye on inflation, monetary policy to support growth, says Das; repo rate hike as expected

RBI MPC Meet Live Updates: Reserve Bank of India Governor Shaktikanta Das announced that the RBI Monetary Policy Committee has raised repo rate by 35 basis point to 6.25%

Odds for any further significant rate hikes lower

"RBI's policy decision to hike rates by 35 bps is well-calibrated and on expected lines. With today's rate hike, we believe the odds for any further significant rate hikes would be lower, as it would lead to terminal policy rate expectations being beyond the comfort zone for the country. Despite growth forecasts being nudged lower by MPC, what was more reassuring was MPC's acknowledgment of India's growth being resilient in the context of global slowdown and that the future prospects for the Inflation trajectory are likely to be lower. We believe with imminent global growth slowdown and the inflation trajectory treaded lower, the bar for aggressive rate hikes in the ensuing policies is much higher and hence we expect that 'the current rate hike cycle is almost done."-Niraj Kumar, Chief Investment Officer, Future Generali India Life Insurance Company Ltd.

IRDAI's new notification throws open wider choices for customers, corporate agents

The measures taken by the IRDAI would help in increasing the insurance penetration in the country, as a corporate agent may represent up to 27 insurers and sell insurance products for them.

This will also help in increasing the insurance penetration in the country, as a corporate agent may represent up to 27 insurers and sell insurance products for them.

"Both the above Regulations are aimed at increasing the number of insurers with whom Corporate agents & Insurance Marketing Firms can have distribution arrangements. Increasing the number of insurers enables these Distributors to offer more choice to their customers. Most of the Banks are Corporate agents and represent a wide and varied segment of customers including retail and corporate. Opening up to 9 insurers is particularly relevant in general insurance as the number of insurance products are high and there are only some insurers who specialize in certain categories of insurance products. For Composite Corporate Agents (who can solicit life, general, health products), tie ups more than 9 in each class are allowed, subject to the condition that the total number of tie ups in all classes does not exceed 27. This further increases the choice. However, the restriction for Corporate Agents (General) in soliciting retail and commercial lines of general insurance products for a sum assured not exceeding Rs 5 crore per risk continues," said Conjeevaram Baradhwaj, Executive Vice President (Legal & Compliance) & Company Secretary at Future Generali India Life Insurance Company Ltd.

"For Insurance Marketing Firms, besides increasing the number of tie ups for 2 insurers to 6 in each class of insurance business, the area of operation which is currently restricted at "District" level, has been expanded to "State" level. Insurance marketing firms are now allowed to operate in all Districts of the State allotted to them. This increases the width as well as depth of operation of Insurance marketing firms in the allotted State and will support the cause of deepening insurance penetration," he added.

OUTLOOK MONEY

Life Insurance Claim Can't Be Rejected For Mis-Statement In Proposal After 3 Years

Insurance companies cannot reject a claim if a mis-statement or non-disclosure is discovered after a three-year period following the commencement of the policy

According to Conjeevaram Baradhwaj, executive VP (legal & compliance) and company secretary, Future Generali India, Life Insurance, till 2014, under Section 45 of the Insurance Act, 1938, life insurers had the right to reject claims even beyond two years from the date of taking the policy if fraud was established on the part of the policyholders while giving information in the application form.

"However, Section 45 was amended in 2015 to place a three-year limitation period starting from the date of commencement of policy or date of reinstating a lapsed policy, on the right of life insurers to refuse payment of claims on the grounds of such non-disclosures for any reason whatsoever. Even today, the three-year limitation period continues," Baradhwaj says.
